

Sensory Friendly Morning

Enter the MIT Museum an hour before opening and enjoy our galleries with a limited number of visitors.

We'll offer a calm space, sensory maps, and social story to help guide you, as well as special drop-in activities.

The Museum opens to the general public at 10am but is typically quieter in the morning. We'll begin to slowly turn exhibit components back on starting at 10am.

Friday, August 16

9–11am

Free

Advance registration required.
